Website Accessibility Compliance of bbdsoftware.com

To Whom It May Concern,

We are writing to confirm that, at the time of design and development of the website <https://bbdsoftware.com>, due care and consideration was given to ensure its compliance with the Web Content Accessibility Guidelines (WCAG) 2.1 Level AA, the internationally recognised standard for web accessibility.

Our team at Untold Heroes made it a priority to implement features that cater to the diverse needs of all users, including but not limited to those with visual, auditory, cognitive and mobility impairments. Among the guidelines followed to achieve this accessibility include text alternatives for non-text content, captions and alternatives for multimedia, content that can be presented in different ways without losing information or structure, and functionality that is accessible through keyboard interface.

As the standard evolves and the website content changes over time, regular checks and updates would be required to maintain this level of accessibility. It is recommended to conduct periodic accessibility audits to ensure continuous compliance with WCAG.

Please be advised that while we strive to implement all the necessary measures for achieving accessibility, some issues may arise from changes made post-delivery or due to user-specific settings.

Sincerely,
Warren Aspeling
Director
